(8) Point of Discovery – For purposes of this clause, “Point of Discovery” means the date on which a meeting is convened by the Contractor’s Chief Engineer to discuss the resolution of a reported deficiency in the Air System configuration, which, if left unresolved, may result in the Contractor’s failure to provide the capabilities described in the Capabilities and Configuration Description Document, Attachment (2) of Section J, or achieve the requirements stated in the JSF Air System Contract Specification (JCS), Attachment (2) of JSF SDD Contract N00019-02-C-3002. The Chief Engineer shall convene a meeting of cognizant Contractor and Government personnel as soon as practical, but not later than 60 days after the deficiency is reported. Deficiencies may be reported by either Government or Contractor personnel.

(9) Point of Discovery Cut-Off Date – For purposes of this clause, “Point of Discovery Cut-Off Date” means the date appearing in Block 21a of the DD250 for the last LRIP 4 Air System delivered under this contract. (2) For any Concurrency Change that does not involve a deficiency in material or workmanship, SELLER will support the LM Concurrency process by a Not to Exceed (NTE) proposal for the recurring effort, as delineated in CM 2YZA00017 Rev C. In the event LOCKHEED MARTIN and its Customer agree to proceed with incorporation of the Concurrency Change, whether by Pre-Acceptance Concurrency Action or Post-Acceptance Concurrency Action, LOCKHEED MARTIN will notify SELLER and SELLER will incorporate the Concurrency Change into LRIP production. Cost and schedule impacts of the Concurrency Change will be negotiated between the Parties consistent with SELLER’s NTE proposal. In no event will a Concurrency Change action under this provision exceed the Truth in

(d) Nothing in this clause shall restrict LOCKHEED MARTIN's rights to withhold acceptance or provisional acceptance of the Items due to defects or deficiencies in materials or workmanship or with non-conformances unrelated to the materials and workmanship.
