ICM	interim corrective measure
NYSDEC	New York State Department of Environmental Conservation
NYSDOH	New York State Department of Health
OM&M	operation, monitoring and maintenance
SPDES	State Pollutant Discharge Elimination System
SSDS	

Received, on 12/23/16, NYSDEC/NYSDOH's approval of the *Draft Excavation Initial Design Investigation Report*.

2. Summary of Findings Made During the Reporting Period

The following findings were made during the reporting period:

Results of fourth quarter groundwater monitoring indicated that the detected types and distribution of contaminants were similar to those of previous sampling events. No sudden increases or historic maxima were identified. A statistically-significant increasing trend was observed at MW-1 for cis 1,2-dichloroethene. Based on the limited exposure to groundwater at MW-1, this trend is not indicative of an

6. Changes in Personnel Conducting or Managing the Corrective Measures During the Reporting Period

The transition from Stantec to Tetra Tech as the Performing Contractor (PC) for the project began on September 1, 2016. Tetra Tech observed project activities until December 1, 2016, then assumed the PC role at that time. Stantec will continue to perform selected tasks as needed either directly for Lockheed Martin or as a subcontractor to Tetra Tech.

7. Summary of Work Planned for the Next Reporting Period
